## MOZLEY'S LEMON ELIXIR

REGULATES THE LIVER, STOMACH, BOWELS, KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

### NEW AIRSHIP A SUCCESS.

Makes Successful Three-Hour Voyage in Teeth of Wind.

Toledo, O., July 3.—One of the most remarkable flights ever made in an airship has been performed by A. R. Knabenshue, who sailed through the air a distance of 3 miles, landed on top of a 10 story office building in 25 minutes from the time of starting and then returned to the depot from which he started.

The day was ideal for the daring feat. A light wind was blowing from the east and Knabenshue sailed his aerial craft directly in the face of this wind. Two days ago he declared he would sail down town and alight on the top of a ten story building. When he left the starting place he directed the ship straight for the city. When half the distance had been covered an upper current of air carried him up to a distance of 3,000 feet. But the nifty director did not lose control of his machine for a moment and steered it directly for the heart of the city.

Business was entirely suspended and the entire population gathered in the street to watch the course of the ship. When directly over the skyscraper Knabenshue directed his craft downward and alighted gracefully on the building. A round of applause greeted the daring navigator who was less excited than any of the spectators.

After examining the ship to see that it was all right and receiving the congratulations of his friends, Knabenshue started on his trip back and going with the wind he made the return voyage in 15 minutes. He declares that his present ship is far superior to others he has navigated, that it is easier managed and that he has solved the problem of aerial navigation.

### FATAL MOTOR CAR ACCIDENT.

Chauffeur Was Unable to Control Machine—One Woman Killed.

New York, July 3.—A fatal automobile road leading from Clermont-Ferrand to Laschamps, where the start for the race for the international cup will be made, says a Paris dispatch to the Herald.

Baron Henri de Rothschild's second machinist, Tomissier, and Joseph Jeffreide, another chauffeur in the service of the baron, were returning with two women from Laschamps in a six-horse power automobile which the baron drives.

The automobile was traveling down one of the long slopes at a tremendous pace when the driver, seeing a turn in front of him, applied the brakes. As a result the back wheels "skidded" on the greasy surface of the road and the vehicle crashed against the pier of a small stone bridge. The four occupants of the automobile were hurled out from the machine.

A number of barrels of tar stood near. One of the women struck a barrel with her head, which was crushed in and she died instantly. One of the men was also thrown against a barrel with such force that his head went through the side.

Persons near at hand went to the rescue and the manager had been withdrawn from the barrel and and he was then removed to the hospital at Clermont-Ferrand badly hurt. The two other occupants, who were thrown into the field, escaped with a slight bruising. The auto was smashed to pieces.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c and \$1. Sold by W. M. Johnson.
